SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK
ON APPLICATION 050087908

REF: BLUE LANTERN GUIDEBOOK 2006

11. (U) This is an Action Request. See paragraphs 2-4.

12. (U) The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests post's assistance in conducting a pre-license check on application 050087908 for the export of infrared searchlight equipment to Russia. Post is requested to complete this Blue Lantern check within 30 days. Lack of response to a Blue Lantern check will affect pending and future applications involving parties to this license.

13. (SBU) Reason for request: foreign end-user and consignee are both on PM/DTCC's Watchlist; vague and suspicious end-use statement; possible involvement of an unregistered broker. Foreign end-user Ulan-Ude Aviation Plant is on PM/DTCC's Watchlist and has never had its bona fides verified by a Blue Lantern check. An additional cause for concern is the end-use statement that the infrared searchlight equipment will be installed on a helicopter owned by Ulan Ude, which purportedly will be operated by the company on behalf of the Russian Federal Customs Service. In addition, foreign intermediate consignee Avitronics International AB appears to be acting as a broker in this proposed transaction. However, the company is not registered with the Department's Directorate of Defense Trade Controls (PM/DDTC) as a broker of USML parts, as required under U.S. law. Embassy Moscow should make appropriate inquiries to verify the bona fides of Ulan Ude and confirm the legitimacy of the proposed transaction. Embassy Stockholm should make appropriate inquiries to determine whether Avitronics is acting as a broker in this proposed transaction and whether the company is aware that U.S. law requires brokers of USML items to register with PM/DDTC. The following questions are provided as suggested guidance:

For the Russian Federal Customs Service, Siberian Department, Buryatia Branch:

--Have you hired Ulan Ude to use its helicopters to perform services on behalf of your agency?

--If so, does Ulan Ude require an infrared searchlight? What exact services will Ulan Ude perform on behalf of the Russian Federal Customs Service?

For Ulan Ude Aviation Plant:

--Does the company have proper supporting documentation, including a contract from the Russian Federal Customs Service, for this proposed transaction?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfers and re-exports? Does the company understand that USML items may be used only for the specific purpose stated on the export license?

For Avitronics International AB:

--Please describe your role in this proposed transaction.

--If serving as a broker in this proposed transaction, are you aware that U.S. law requires brokers of USML items to register with the State Department and to obtain prior authorization for many brokered transactions?

14. (SBU) For background, the following details of the license in question are provided:
